From the Administrator

June is Senior's Month, which gives us an opportunity to recognize and celebrate the aging population within our community and throughout the province. We have so much to be thankful for when we reflect on all that the aging population have contributed to our lives and communities. Aging does not prevent any of us from leading fulfilling lives focused on well-being, inclusion, and meaningful community connections. Seniors continue to make valuable contributions each day, and we all benefit from their knowledge, wisdom, friendship, stories, and life experiences. Many of us have spent most of our careers working in long-term care, and for that we are incredibly fortunate. When you are given the opportunity to support someone in a time of need, it often does not feel like work at all. Instead, it brings a sense of fulfillment and honour that is unique to this profession. Our seniors have lived lives rich with history, resilience, and insight, and every so often someone will share a precious memory or story that leaves a lasting impression. If you have the opportunity, please take a moment to sit down and start a conversation with one of our residents — you may be pleasantly surprised by what you learn. Last month, we were fortunate to celebrate Mother's Day with our residents and their families, and this month we are honoured to celebrate Father's Day. Please check our calendar for upcoming event details. We look forward to spending this special time together with everyone. We also have an exciting personnel announcement to share. Brianne Crawford has joined the Moira Place team as our new Social Service Worker, she started her position on May 27th. Please join us in giving Brianne a very warm welcome.
